bohemian rhapsody

The mix n match furniture pieces from Alchemys Amalgamations collection seamlessly segues between being eye candy and functional yet arresting pieces of furniture. Makesure to add in some of those hand-crafted inlay pieces while putting together your personal décor cocktail. (alchemythestore.com)

MINI TREND

peach up

This ceramic vase from Ochre At Home walks the thin line between subtle and sensational — its curious shape provokes conversation while the pale matte finish allows it to silently blend in with its surroundings. (ochreathome.com)

CRUSHING ON timeless art

This exquisite Japanese Satsuma vase is hand-painted with symbolic scenes depicting samurai warriors, chrysanthemums, peonies and ferns in rich colour combinations. Find these in Asta Guru's decorative art catalogues. (astaguru.com)

SIMPLE LIVING

high thinkings

When it comes to combining a minimalistic design trajectory with the spotlight on functionality, the TRIPÉ three-spoke system of tables from Scab Design wins hands on. Designed by RadiceOrlandini DesignStudio, the steel base connects with single or multiple die-cast aluminium joints that permit flexibility to compose into single or double column tables. The effect? So chic! (scabdesign.com)
